

“Enabling Development of Sustainable Cross-Border Clusters”

CBC Clusters

HR-RS 265

Interreg IPA Cross-border Cooperation Programme Croatia – Serbia 2014-2020

PhD Saša Bošnjak
Project manager

CBC Clusters

Duration: 01.06.2019 - 30.11.2021 (30 months)

The main challenge that was jointly tackled by this project was the shortage of skilled labour force for SMEs in the dominant industries in the area – paper industry and mechanical engineering in Belišće and agriculture in Sombor, together with high unemployment rates and low potential for innovation. In order to address those challenges, this project established a stronger cross-border industry-government-university-civil society cooperation (“Quadruple Helix”) and therefore enforce the growth capabilities and employment and innovation potential of local SMEs.
